Basic specification

Rated Voltage: A.C 220V~230V,50Hz

Rated power: 1100W

Motor Voltage: DC 5V

Working Condition

Operation temperature: 5~40°C

Relative Humidity: ≤85%

Air Resource: Output 550kPa~800kPa; air volume should not less than 50 L/min.

Water Resource: Output 200kPa~400kPa; Water volume should not less than 10L/min.

Electronic specification

Electronic Security Class: I class

Electronic Defending Class: B class

Running: Interrupted load and continued device

Fuse Information

Type	Qty	Position
RT1-20 ϕ 5×20 10A	1	Power Resource
RT1-20 ϕ 5×20 2A	1	Instrument Tray
RT1-20 ϕ 5×20 5A	2	Dental Unit
RT1-20 ϕ 5×20 5A	2	Dental Unit
